

Adobe Reader

In order to view the PDF file containing the Khowar dictionary, it is necessary to have Adobe Reader installed on your computer. This free software is available for downloading at <https://www.adobe.com/acrobat/pdf-reader.html>.

Search

To run a search within the dictionary PDF file, open the PDF “find toolbar” by selecting Ctrl+F (on Windows platforms) or Command+F (on Apple platforms).

Words in roman characters are searchable by entering the simple roman characters or by entering the Unicode characters. For example, searches for “carsambeh” or “čaršambéh” both locate the entry for چارشنبه.

To search for Perso-Arabic characters, use the Khowar keyboard described below to enter Khowar characters into the “find toolbar”.

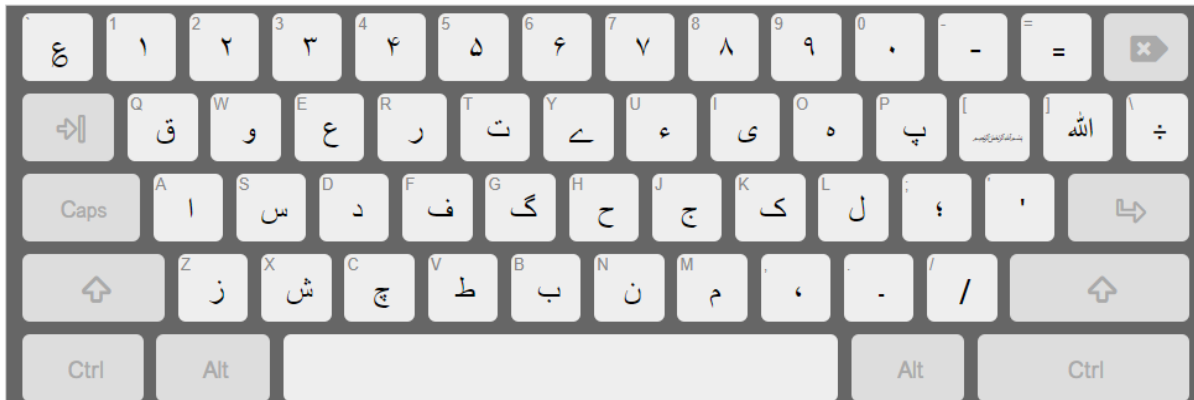

Fonts

The Scheherazade font from SIL International was used in creation of the Khowar dictionary text. It is available at <https://software.sil.org/scheherazade/>. Installation of the font will be useful in searching the PDF file containing the dictionary.

Keyboard

The keyboard produced by SIL International for Khowar is available at https://keymanweb.com/?_ga=2.119122189.508143250.1653164365-683879234.1652558596#khw-arab,Keyboard_sil_khowar. It is only available for use on desktop and laptop computers. Searching for Perso-Arabic characters is simplified if this keyboard is installed.
